# HEALTH HUB MEDICAL CLINIC

## Advantage of Health Hub Medical Clinic :

- ✚ It provides you access to the best medical doctors & specialists.
- ✚ SmartDoc can be used from wherever you are.
- ✚ It's extremely easy to use and is convenient.
- ✚ You save time by avoiding long queues and waiting times.
- ✚ It's continuous health management helps you monitor your health, 24/7.
- ✚ Health centers **reduce health disparities** by emphasizing coordinated care management of patients with multiple health care needs and the use of key quality improvement practices, including health information technology.

## Disadvantage of Health Hub Medical Clinic:

- ✚ **Work in this field can be physically draining:** Healthcare workers have to work longer than average work time.
- ✚ Working more than 12 hours a day can be strenuous. Moreover, spending the whole day inside a room with the patients can be stressful.
- ✚ Low quality care.
- ✚ Corruption.
- ✚ Overcrowding of clinics.
- ✚ Poor cooperation between public and private spheres.

# **CHAPTER-5**

# HEALTH HUB MEDICAL CLINIC

## Application of Health Hub Medical Clinic:

-  Health Hub **makes it quicker and easier for you to access important hospital information.**
-  You can see and manage information about your care and treatment in one secure location
-  The health hub could allow important advances and efficiencies to be achieved in workforce practice and education; patient and carer engagement in self-care; and the collection of patient-reported health data required for ongoing research and improvements in health care.
-  Multimorbidity is the presence of more than one chronic disease condition in an individual. Health-related, socioeconomic, cultural and environmental factors, as well as patient behaviour, all influence the outcomes of multimorbidity
-  Addressing these complex and often interacting biopsychosocial factors therefore requires a shift in treatment from a physical damage model towards person-centred integrated care with increased patient agency.
-  **BILALs HEALTH HUB** Polyclinic & Diagnostic Centre is a Multi-Disciplinary Polyclinic cum Diagnostic Imaging Centre in Handwara providing world-class Diagnostic Facilities.

## CONCLUSION OF HEALTH HUB MEDICAL CLINIC:

-  Inadequate **healthcare is prevalent globally in all countries, and no country has a perfect healthcare system.** Health is a basic human right, and improvements in healthcare should be a goal of every country.
-  The primary health care is a system is a system which is referred and being call by people for health related emergency.
-  The patients may coordinate to the ambulance, hospital, clinic and nursing for immediate problems.
-  The doctors, nurses, ward boys and paramedical officers are the components of the health care system.
-  The insurance agents generate an insurance related to medical health in case of emergency.
-  Primary health care (PHC) is "essential health care" that is based on scientifically sound and socially acceptable methods and technology. This makes universal health care accessible to all individuals and families in a community.
-  Health Team means a group of health care providers which may, in addition to health care practitioners, include the patient/client, family, and any significant others.

## Future Scope:

Meanwhile, the virtual or remote healthcare space will be key for India going forward. According to data analytics website Statista, the global market for virtual or remote healthcare is expected to be over \$450 billion by 2030

The next wave of care **emphasizes wellness and preventive medicine, rather than primarily treating and curing problems after they've arisen.** This focus will allow clinicians to provide more personalized care plans, making it easier to diagnose rapidly and apply precision care when illness does occur.

Students with a diploma or UG/PG degree in healthcare or hospital management can apply to work in nursing homes, clinics, public health offices, health insurance firms, public and private hospitals, international and national healthcare organizations, medical research facilities, pharmaceutical companies, and hospitals

Healthcare degree enhances theoretical and practical skills to excel in areas of **health tourism, research and medical information.**

Graduates can also pursue on-site experience in healthcare setting of ` nursing home, hospital, long-term care facilities or private clinic.

Professionals in public health administration work to **improve the quality of public health services, serving as leaders of public sector and nonprofit organizations.**
